

**IMPORTANT**

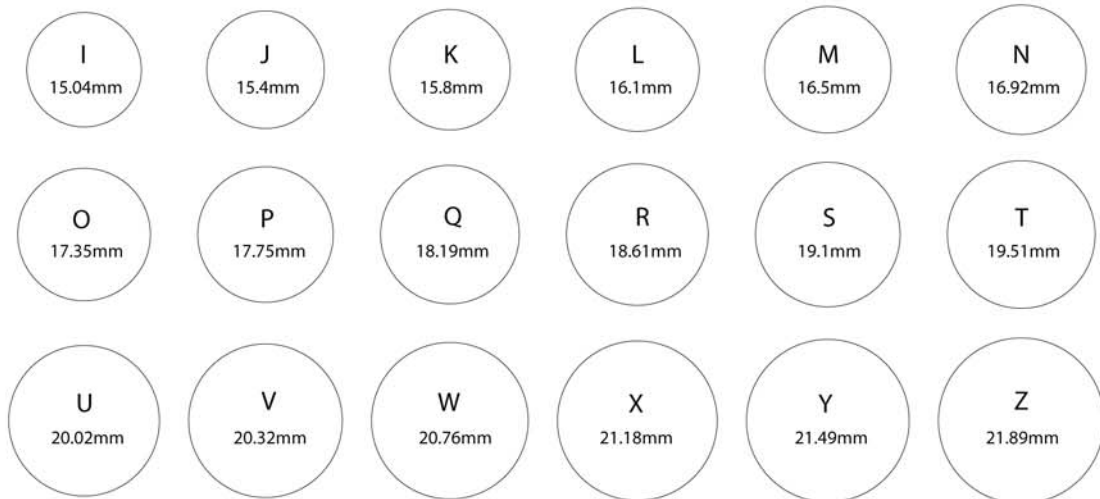

When printing, make sure that "Page scaling" is set to "none" or 100%.

Once printed, check the lines opposite match up to your ruler.

**Measure a Ring**

Using an existing ring that fits the finger you are sizing for, place it on the ring outlines below to determine the correct size. The right size will be when the edge of the circle touches the inside of your ring all the way around.

**Measure a Finger**

- Cut around the sizer and make a slit where indicated
- Make a loose circle by slipping the end through the slit then place on the finger being measured and tighten
- To get an accurate gauge, please make sure hands are warm as cold fingers are slimmer
